

# Accidental damage to your equipment? No problem!

Our Trimble Protected Premium\* protection plans are made with you in mind, ensuring you're covered if the unexpected happens. Trimble Protected plans cover everything that your original Trimble® standard product warranty covers, plus several value-added enhancements. Our multi-year Premium plan includes accidental damage and includes FIVE YEARS of software and firmware^ updates. Available only at the time of equipment purchase, you get the benefits from day one even during the standard product warranty period.

**You'll enjoy less downtime, increased productivity and less stress. Don't wait, start future-proofing your livelihood today.**

^ See your dealer for details.

## Has this ever happened to you?

- You accidentally dropped your data collector and its screen cracked. With Accidental Damage coverage under Trimble Protected Premium, the unexpected will not affect the rest of your project.
- You tripped while using your Trimble® receiver and cracked its housing. With Accidental Damage coverage under Trimble Protected Premium, your work can carry on.
- Your tablet was sitting on your desk at work and one of your coworkers spilled hot coffee on the tablet causing it to stop working! With Accidental Damage coverage under Trimble Protected Premium you can be confident that you are covered.
- Your employee backed up your truck without seeing your total station and tripod behind it. The total station was knocked to the ground and damaged. Trimble Protected Premium will be there to help!

## Important Plan Coverage Overview

- Trimble Protected Premium\* covers hardware only on eligible total stations. Replaced instruments come with a standard product warranty; a Trimble Protected Premium plan can be repurchased to continue the Accidental Damage coverage.
- Three preventive maintenance services are available during the plan period for eligible total stations.
- Trimble Protected Premium coverage begins immediately and runs concurrently with the standard product warranty and throughout the protection plan period.
- Trimble will either repair OR replace the instrument with a new or like new instrument if an accident happens. If the instrument cannot be repaired it will be replaced one time. After one replacement, the hardware protection plan ends, and the user can transfer the Trimble Access™ software to a new instrument. The software portion of the plan continues to the expiration of the protection plan.
- Abuse is not covered by the plan.
- Instruments with cosmetic damage like dings, dents, scratches, etc. that function normally are not covered.
- Trimble Protected Premium does not cover lost or stolen instruments.

\*Not available in all countries or regions. See your Trimble Protected protection plans distributor for availability.

**Plans provide FIVE YEARS of coverage for drops, falls, liquid spills, broken screens, and similar types of damage resulting from an accident.**
