HARDIN COUNTY SHERIFF'S OFFICE PRESENTS PUBLIC SAFETY

DRONE TRAINING FIELD DAYS

Hardin County Sheriff's Office, in partnership with **Seiler Public Safety**, is hosting a **hands-on drone training event focused on real-world public safety operations**. Bring your own UAV platform and test your skills through NIST-designed flight courses built to evaluate proficiency, consistency, and operational readiness.

Day one will include a crash mapping training session. Hands-on flight exercises, NIST flight courses, interior flight operations, and live demonstrations will be available throughout both days. Demo units will be on hand, along with opportunities to learn best practices from experienced operators.

NIST Flight Courses

Standardized courses to test and improve proficiency

Bring Your Own Drone

Train using the equipment you deploy in the field

Live Demonstrations

See public safety drone workflows in action

Operational Best Practices

Learn from experienced professionals

Equipment Demos

Evaluate available UAV platforms and technology

Peer Collaboration

Connect with other agencies and share techniques

EVENT DETAILS
