

TRIMBLE FORENSICS REVEAL BASIC AND SCAN DIAGRAMMING

December 8th - 10th
Madison Area Technical College
Portage Campus
330 W. Collins Street
Portage, WI 53901

Course Instructor:

Mike Marquardt

Seiler Instrument Geospatial - Public Safety, Applied Forensic Expert

\$935/PERSON

Prerequisites: Basic Crash Scene Investigation or Basic Crime Scene Investigation Course.
This course is for sworn law enforcement officers only. Maximum class size: 8 students.

COURSE OBJECTIVES

This course will teach you the skills needed to complete a basic scaled crash or crime scene diagram using field measure measurements collected with total stations, scanners, UAV's, and tape measures. This course shows you how to merge all the data together, build your scene in both 2D and 3D perspective, perform analysis and speed calculations, and print reports in the Trimble Reveal software.

Drawing Tools and Layers

Setting Camera Views

Using Models and Objects

Applying Vehicle Damage and Crush

Using Satellite Images

Importing Scene Data

Merging Multiple Measurement Logs

Applying Surfaces

Momentum Tools

Creating a Code Library

Using Virtual Total Station

Crash Math

Adding Evidence Markers

Printing Reports

Scan Segmentation

Scan Classification

Required course items to bring: laptop computer with Trimble software installed.
Seiler Instrument will provide up to 10 laptop computers and software.
